

Work to Begin on Interstate 5/I-805 Widening Project

The California Department of Transportation will begin work on Tuesday, March 26 on the widening project on Interstate 5/I-805. The project will construct a separate freeway bypass system from the junction of interstates 5 and 805 to the Del Mar Heights Road interchange. The project also includes construction of a new interchange at Carmel Mountain Road and adding of auxiliary lanes to the existing main lanes.

In order to keep you informed on the progress of this important freeway project, Caltrans has developed a website and established a prerecorded hotline number that contains the latest information on this project. The website will be updated as work progresses, please log on to www.dot.ca.gov/dist11/5-805wide/5-805wide.htm or the call hotline number at (858) 720-2114.

Driving through road work areas can be dangerous for motorists and highway workers. **USE CAUTION!** A state law (cvc. 42009) provides that when driving infractions such as speeding, reckless driving, etc. occur in construction and maintenance zones, the fines will cost you **DOUBLE** the money of those same infractions in non-work areas.
